Installation- and connection information

For VEGASON 83 GK ... 87 GK
VEGASON 83 GV ... 87 GV
VEGASON 83 GA ... 87 GA

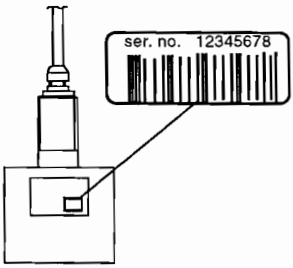
Transducer and electronics are matched and marked with the **same number** (see type plate).

Attention!
If exchanged, interferences of the function are caused, therefore:

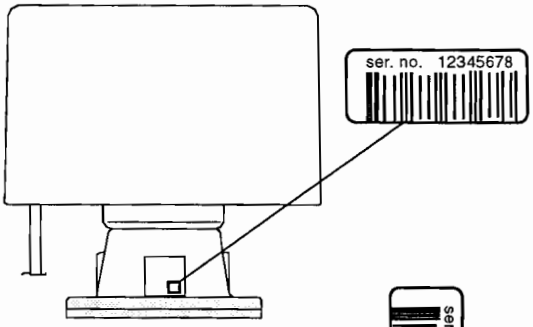
- Note the instrument numbers before installation of the transducers
- Check if the numbers correspond before connecting the transducers

Position and configuration of the numbers (lable) see demonstration 1 to 3

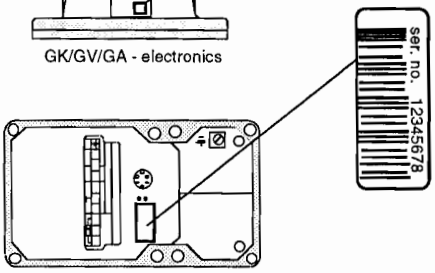
Demonstration 1 VEGASON 83 GK/GV/GA



Transducer SW3



GK/GV/GA - electronics



Cable connection
